

# Aurilis News

N°4 - April 2011

## Edito.

**In mid-2012 Aurilis Group will be focusing its central storage activities on a 14,000 m2 site of at Clermont-Ferrand.**

This new site will coordinate under one roof all of the products of the group's two divisions: automotive, heavy goods vehicle and industrial equipment spare parts for the Flauraud division, and automotive accessories for the Aurilis division.

Today the Aurilis Group delivers services to customers of the Flauraud and Aurilis divisions from 19 Flauraud warehouses in France and 5 storage centres: Aurillac (15), Lieusaint (77), Craponne (69), Toulouse (31) and Chatillon-sur-Chalaronne (01). After a thorough audit, the group decided to concentrate its central storage activity at a single site. Ideally located at the nexus of the north-south and east-west motorways, Clermont-Ferrand was also chosen because it allows the company to remain true to its roots in the Auvergne region. The site at Aurillac will still be the group's headquarters. General Management, Commercial Services, Marketing, Purchasing, Procurement, Human Resources and Quality will also be based at the Clermont-Ferrand site to reinforce the synergies of the group.

*It is our aim to be a company known for its economic and social track record. The new site will enable us to become more competitive in a very developed market, to provide better assistance to our clients by offering them a comprehensive solution and to bolster the skills within our company.*  
**Pierre-Jean Flauraud**

## Get away before the summer holidays!

With its retro and eco design case, Funel Surf No.113 gives you the chance to get away to the seaside. The subtle blend of Vanilla and Strawberry scents stir up memories of ice cream at the seaside. For the more daring amongst you, choose watermelon and grapefruit to smell the real aromas of the South of France! Nature is a treasure chest of different smells, and Funel has tapped into this to allow you to experience them to the full throughout the summer months.

## Reserve your places!

Our 27th Inotech Salon will take place from 23 to 25 September 2011 at Clermont-Ferrand's Grande Halle.

## Clean your car with wood!

Superclean is going green and offers you two smart products for your car maintenance:

Multi-purpose cloth  
Ref 911 040

Cleaning mitts with three uses :  
cleaning windows, removing dust, applying polish  
Ref 911 041

## Did you know?

Wood viscose is a textile fibre obtained by extracting cellulose from wood. It is used to manufacture cloths, cellophane (a plastic film used particularly for preserving food), and plant-based sponges.

### Its benefits:

- very strong whether wet or dry,
- high moisture absorption (more than cotton or silk),
- very flexible and fluid.

## An oval-shaped life!

The rugby World Cup is starting in just a few months time, but why wait?

## Green Valley CONNEMARA

The sharp peaks of the Connemara hills provide the cutting edge to the design of these new Green Valley roof boxes, but their appeal doesn't stop there.

- ABS structure for better shock resistance, and resistance to scratches and UV

- Quick-mounting system to make the roof boxes easier to fasten

- Central locking system to make opening and closing the boxes safer
